

**[For Immediate Release]**

天韵國際控股有限公司  
Tianyun International Holdings Limited  
(Stock code : 6836.HK)

**Newly R&D Pure Fruit Snack Food Received  
the "Certificate of Invention Patent" from the State Intellectual Property  
Office of the People's Republic of China**

**First Batch of Products Will Be Soon Launched  
in Mainland China, Hong Kong and Macau**

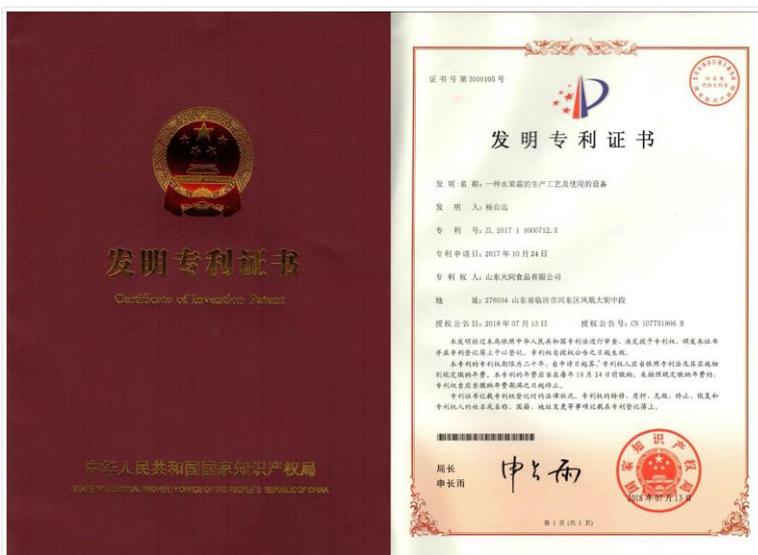

(Hong Kong, 1 August 2018) **Tianyun International Holdings Limited ("Tianyun International", together with its subsidiaries, the "Group") (Stock code: 6836.HK)**, a leading seller and manufacturer of processed fruits products in China, is pleased to announce that a fat-free pure fruit snack food which is similar to ice cream of the Group's subsidiary Shandong Tiantong Food Co.,Ltd. ("Tiantong"), has received the "Certificate of Invention Patent" issued by the State Intellectual Property Office of the People's Republic of China for its superior product technology. The patent period is 20 years. The outer package of the product has been designed and will enter the mass production stage soon. The first batch of products will be officially launched in mainland China, Hong Kong and Macao markets in the near future.

The production process of this pure fruit snack food is different from fruit-flavoured ice cream that are commonly seen in the market. The new products do not contain any fat and can be transported and stored at room temperature. It is an revolutionary product that is convenient for transportation and storage, which contains original fruit taste and nutrition with a soft taste like ice cream after freezing. This group has obtained the "Certificate of Invention Patent", which proves that its production technology and equipment have been highly recognized at national level, laying a solid foundation for mass production and sales in the future.

According to industry reports, China has become the largest market for ice cream with the market scale over RMB100 billion. The Group's products are exquisitely packaged to fit the consumption habits of modern consumers; the de-seasonalised production strategy and operation mode can raise corporate core competitiveness. At present, the products are about to enter the mass production stage

and expect to be launched in August 2018, It will then be launched in Hong Kong and Macao soon. The foods will provide consumers with a pure and refreshing taste during the summer vacation.

**Mr. Yang Ziyuan, Chairman and CEO of the Group**, said, "It is our great pleasure to receive the "Certificate of Invention Patent" from the State Intellectual Property Office of China which is a big affirmation for Group's R&D capabilities. The Group leverages on our upgraded brand strategies and R&D strengths to put extra effort in our new products development and processing technology, continuously launch new products to satisfy consumers' willingness for new flavours and multiple tastes. In the future, in line with the highest aim of producing natural, healthy, nutritious and safe food products, the Group will continue to take advantage of the parallel development strategy of its own brand and OEM business to grasp the opportunities of rapid development of its own brand, as well as to further enhance its brand awareness. The Group will also develop new products, enhance the brand image and further consolidate its market leadership."

The Group received the "Certificate of Invention Patent" issued by the State Intellectual Property Office of the People's Republic of China

The first batch of products to be launched in the Mainland China, Hong Kong and Macao markets are about to be mass produced

**About Tianyun International Holding Limited (Stock Code: 6863.HK)**

Tianyun International Holdings Limited (the "Company") and its subsidiaries (collectively referred to as the "Group") are principally engaged in (i) the production and sales of processed fruit packaged in metal containers, plastic cups and glass containers and ii) trading of fresh fruit. Processed fruit products are sold both on an OEM basis and under our own brands. On 7 July 2015, the Group was successfully listed on the Main Board of The Stock Exchange of Hong Kong Limited which had further consolidated our leading position in China's processed fruit product industry.

The Group has been consistently committed to provide healthy and safe products to its customers. As one of the food enterprises with the most comprehensive list of overseas and local quality certifications, we have always been dedicated to following stringent international production standards and are accredited with BRC (A+), IFS Food (High), FDA, HALAL, SC, KOSHER, BSCI and ISO22000 etc in respect of our production facilities, quality control and management. The Group has also passed the internal food production standard reviews and audits from some of the UK and US supermarket chains.

At the same time, within China, as a "Equal production line; Equal standard; Equal quality" food production and export enterprise, the Group has been supplying products of equivalent quality to domestic and international markets. Since 2016, the Group's own brand processed fruit products have continued to obtain a high degree of market recognition, and have been awarded by a national institution the honour and qualification of "China Canned Product Quality Certification Label", become the first fruit processor in China's fruit processing industry to put the authorized "Zero Added Preservative Canned Products" label for its products sold in China.
